

PROTECTING

OUR PETS

IN THE EVENT OF A DISASTER

PREPARE . . .

BEFORE IT HAPPENS

- **Make sure your animals are wearing collars with securely fastened up-to-date identification.** Ask your vet about microchipping your pets—it's an excellent way to assure that they make it safely back to you. AWLA provides this identification several times a year. Call for more information at 703-931-9241. Birds can be identified by photographs and leg bands.

- **Never leave your pet behind—** In the event of a disaster, if Arlington opens a shelter for people, there will also be a pet shelter opened. You will be asked to bring the animal's crate, food, medicines, and other items you may have in your pet's "go bag". Information on where the shelter location will be posted on the County's web site, 1700 AM, Arlington Alert and local media. Please visit the Arlington County Office of Emergency Management website for more information on pet sheltering. If a disaster is pending, prepare to evacuate, and do so early for your safety—and your pets.

- **In the event you can't get back to your house, arrange for a trusted friend or neighbor to retrieve or care for your animals.** This person should have a key, be comfortable with your pets, and know where your pet's disaster supply kit is kept.

ESSENTIALS . . .

CREATE A DISASTER KIT (BEFORE THE STORM)

INCLUDE:

- Up-to-date medications and vaccination history
- Medical records and an

information sheet on special needs/feeding and exercise regimens for the boarding facility or shelter

- Veterinarian's phone number
- Properly-sized carriers for transporting and housing (especially if evacuation to a pet friendly shelter is necessary)
- Sturdy leash
- Food and potable water and bowls
- Muzzle
- Plastic bags
- Cat litter/pan
- Can opener
- Pet toys and beds
- Current photo of your pets in case they get lost
- Out-of-state phone number of a friend or relative to contact should your home phone be out of service
- Pet First Aid Kit

TAKE YOUR ANIMALS WITH YOU!

Leaving pets behind can result in their injury, loss, or death. Always take your pets with you!

After An Event...

- **Walk pets on a leash until they become re-oriented to their home** – often familiar scents and landmarks may be altered and pets could easily be confused and get lost. Also, downed power lines and other debris can all

pose a threat to animals after a disaster.

- **If pets cannot be found after a disaster, contact the local animal control office to find out where lost animals can be recovered.** Bring along a picture of your pet if possible. When safe to return home, post your pet's picture in the neighborhood.

- **After a disaster animals can become aggressive or defensive** – Monitor their behavior. If you see an injured or stranded wild animal, do not attempt to help them. Call your animal control officer.
